Agreement Regarding Terms of Employment and
Delivery of District Services Impacted by the COVID-19 Crisis

The District and Association agree upon this Memorandum amidst the COVID-19 pandemic.

For the 2020-21 school year, the District is planning a sustainable and flexible online/remote-only instructional model that may pivot to in-person/online hybrid models, or in-person learning, based on the impacts of a changing health situation, available resources, and direction from OSPI, our Governor and our Health Department(s).

Our model of reopening schools, including all potential hybrid learning models, will prioritize the health and safety of our students and staff.

Health and Safety: District wide health and safety protocols will be designed to comply with guidance of all applicable public health agencies. Strict compliance with all relevant District safety and health rules will be an essential function of each employee’s job.

Compensation: Permanent employees and those employees hired into permanent positions on probationary status, Long-Term Substitutes, and Temporary Employees will continue to be compensated under the terms of the Collective Bargaining Agreement. There shall be no reduction of compensation so long as the work related to the contract is appropriately adapted to the learning platform or assignment. Stipends will be paid under the terms of the collective bargaining agreement.

11. **Alternative Work Assignments Provision One:** When an employee’s assignment requires work/services at a District work site and the employee cannot, or is allowed by the District to not work at a District work site, the District will attempt to accommodate these circumstances by assigning the employee to available work that can be provided remotely from home on the condition that the employee is qualified and prepared to provide such services.

12. **Alternative Work Assignments Prioritization:** When choosing from among multiple employees for the same available assignment, the District will prioritize employees in the following order:

If two or more employees have equal priority under the conditions above, the District will use District seniority to make the assignment. If a remote assignment is created and assigned to an employee with the expectation that it will continue for the entire school year, the District will not be required to reassign employees previously awarded such assignments in order to accommodate remote assignments for other employees whose need for an alternative assignment arises later in the school year.

13. Alternative Work Assignments Provision: To maximize the District’s options for meeting the educational, social and emotional needs of students in the unusual circumstances of the 2020-21 school year, the Association and District agree to the following limited opportunity for temporary reassignment of employees:

a. An employee may be temporarily assigned to provide services outside the employee’s normal job description if work within the employee’s job description is unavailable due to the temporary closure of school facilities;
b. Such employee may only be assigned to perform work for which the employee is appropriately trained, licensed (if applicable) and prepared to perform;
c. Such employee shall be paid the regular salary, wages and benefits the employee would receive from the employee’s normal assignment. Regular salary, wages and benefits do not include supplemental contracts;
d. Such employee’s temporary assignment may not result in displacing any other employee performing services within their regular job description except as allowed in the collective bargaining agreement;
e. The temporarily reassigned employee retains a right to return to the employee’s original assignment upon resumption of normal school operations, subject to existing contract rights of the District to reduce the workforce and/or reassign employees within the same bargaining unit; and
f. This provision applies exclusively to the assignments and job duties of represented employees, unless agreed to by other bargaining units. Represented employees will not be assigned job duties performed by job classifications in other bargaining units without the agreement of any affected bargaining unit(s).

14. Possible Limitations: All the contractual, insurance and statutory leave benefits referenced above have specific rules or external agencies that govern their application, and the terms of this agreement will be interpreted consistent with those rules and agencies. Some of the leave entitlements may require documentation from a health care provider.

Evaluation: Evaluations for the 2020-21 school year shall be completed in accordance with the Collective Bargaining Agreement and guidance from OSPI. Evaluators may conduct observations remotely if virtual instruction is the active learning model or is the certificated employee’s primary assignment. The parties agree that virtual/hybrid instruction falls outside the scope of the experience and training of certificated employees. Required comprehensive
evaluations shall be completed with the understanding that certificated employees are operating outside their regular area of expertise.

**Instructional and Service Delivery Model:** The Instruction and Service Delivery Model shall be determined by the District consistent with current guidance from Public Health agencies and OSPI. Timelines of transitions to models with more in-person instruction will be based on changes in the guidance from Public Health agencies and OSPI and taken with the understanding that the safety of students and staff is of utmost importance. The District and Association will continue to work together through the Labor/Management process to resolve issues that arise as the District’s service delivery model is implemented.

**2020-2021 School Calendar:** The district and the association agree that Friday, May 28th (Snow Make-Up Day) will be a regular school day and Friday, October 9th will be a Professional Development Day for staff. The day before Thanksgiving and the Friday before Winter Break will be asynchronous instruction days. The parties will meet to make a determination about the last day of school by May 1st, 2021 based on the delivery model in place at that time. Conference week will be the last full week in October. Asynchronous instruction time will be provided during the week to allow for conferences, dependent on the delivery model in place at that time.

**Communication:** The District will continue to provide updates regarding recommendations from appropriate Public Health agencies and the Office of the Superintendent of Public Instruction related to school operations and appropriate measures under way to minimize the spread of the virus.

**Effective Dates:** This MOU shall be in effect for the 2020-21 school year and shall sunset on the last instructional day of the school year, or at such time it is determined by the District, per guidance from local public health officials, to be safe to bring all students and staff back for in-person instruction. All other provisions of the collective bargaining agreement shall remain in full effect. This MOU is not precedent-setting and is intended to address the specific and unprecedented health emergency presented by COVID-19.

Agreed to this 28th day of August 2020. Signed this 28th day of August 2020.
